

REAL-TIME PRODUCTION VISIBILITY

Make production visible.

See what is really happening on your production floor - in real time.

www.aeyebox.com • info@aeyebox.com

No machine integration • No complex IT project • Results from day one

THIS IS AEYEBOX

One box. Three steps.

A practical bridge between existing machines and clear production decisions.

01

INSTALL

Mount the box in minutes. No machine integration required.

02

OBSERVE

AEYEBOX captures what is happening in real time.

03

IMPROVE

Use dashboard data to take action faster.

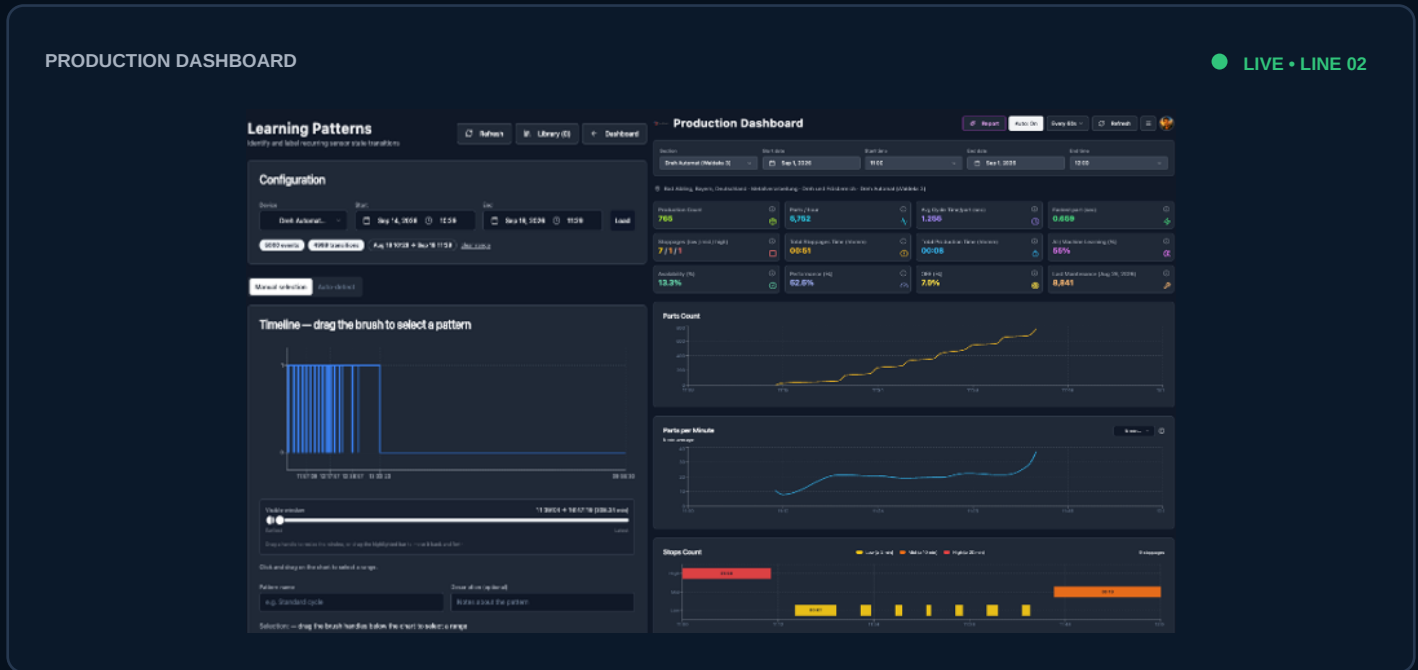

Everyday losses. Real impact.

- **Unplanned downtime**
Why did the machine stop?
- **Cycle-time losses**
Where are we losing seconds?
- **Missing transparency**
Why do reports arrive too late?

CLEAR ANSWERS

From shop floor to dashboard.

Turn production signals into decisions your team can act on immediately.

USE CASES

Solving real production problems.

01

Downtime reduction

Identify the real reasons behind every stop.

02

Cycle-time optimization

Find and eliminate small losses across the shift.

03

OEE improvement

Improve availability, performance and quality.

YOUR PRODUCTION. IN REAL TIME.

Ready to see what your machines are telling you?
